

# FLORIDA GROUND WATER ASSOCIATION

*“The Voice of the  
Ground Water Industry”*

**FGWA MISSION:** To provide professional and technical leadership in the advancement of the ground water industry and in the protection, promotion and the responsible development and use of the ground water resources in the State of Florida. In support of this mission, FGWA is committed to: Serving as a Statewide education and information resources; serving as a communication link for our diverse membership to allow them to address their unique needs and the issues facing the ground water industry; and serving the people and the organizations who produce, study, utilize, remediate, market, protect or manage ground water or related products and services in the State of Florida.

## CEU Provider Endorsement Program

## Florida Ground Water Association — Your Ground Water Industry Partner Become an Endorsed Provider with the only ground water association in Florida

The FGWA has a unique opportunity for industry continuing education providers. Your company can become a FGWA “**Endorsed Provider**”! To succeed in today’s market, busy companies need to maximize time and minimize expenses. FGWA has put together this unique program in order to provide FGWA contractor members a compiled list of endorsed CE providers at minimal cost to you.

Not only will you be reaching out to Florida’s ground water contractors, but you will also be helping to support FGWA and the communities in which it serves.

Over the past two decades, FGWA has granted approximately **70 college scholarships** totaling over \$60,000 to students who are the sons and daughters of FGWA members. It’s board of directors play a vital role in the quarterly **DEP Workgroup Committee** in representing the interests of well contractors when proposed rules and regulations are under consideration. Most importantly, FGWA’s mission is to **represent all segments of the ground water industry** and devote its entire efforts to the promotion and protection of Florida’s ground water professionals and our ground water resources.
