

Job Opening**Company Name** Florida DEP - Florida Geological Survey**Job Title** Professional Geologist I**How to Apply** <https://jobs.myflorida.com/job/TALLAHASSEE-PROFESSIONAL-GEOLOGIST-I-37020895-FL-32303/669740500/>

Job Description & Location The Florida Geological Survey (FGS) is offering two exciting opportunities for Florida licensed professional geologists to join our team in Tallahassee, FL. The FGS conducts research on stratigraphy, aquifers, springs, landforms, and uses the results to further our understanding of complex interactions in the natural environment. Our geoscience staff apply field and GIS skills to produce geologic maps which help solve environmental problems. We are committed to providing geoscience information that protects the public health and safety of citizens and supports environmental stewardship to protect Florida's diverse ecosystems. FGS is seeking highly qualified candidates with the right energy, attitude, drive, and expertise in geologic mapping, hydrogeology, or geophysics who are excited about learning more about Florida's geology and helping to build Florida's first 3D geologic map. The FGS is committed to providing an environment of mutual respect through equal opportunity that honors diversity, equity, and inclusion.
